

Wisconsin DNR Regulation Update

Aaron O'Rourke, DNR - Eau Claire, WI

This presentation will be an update and refresher on NR 151 Silurian Bedrock Targeted Performance Standards along with updates to the 'in development' Nitrate in Groundwater Targeted Performance Standard.

Aaron O'Rourke is the Nutrient Management Program Coordinator for Wisconsin DNR in the Concentrated Animal Feeding Operations (CAFO) program. Aaron is from southeast Wisconsin and has an Associates Degree in Law Enforcement from Fox Valley Technical College along with a Bachelors Degree in Resource Management and Soil Science from UW-Stevens Point. Aaron has been with the DNR since 2016 and in his current role since 2017.
